## **Regarding 2020 BC Government Budget Priorities**

Dear Committee Members:

This submission is on behalf of the Greater Victoria Public Library Board. We are writing to bring to your immediate attention the importance of provincial funding support for public libraries.

Public libraries are the only public institutions that are truly equitable in providing services for all community members so that they may participate in and benefit from the social and economic development of their communities. Public libraries are also the only freely accessible public spaces for all British Columbians to connect with, learn about and experience the advantages of living in this province. Public libraries significantly contribute to the government's three key commitments:

- Making life more affordable
- Delivering services people can count on
- Building a strong, sustainable economy that works for everyone

Working together public libraries support the building of a strong, sustainable and innovative economy for all British Columbians. We appreciate the provincial government's recognition of the public library funding issue. In 2017, the provincial government, in response to the UBCM Resolution B60, acknowledged that the cost of delivering public library services has increased with changing technology and other demands. We are heartened by our shared understanding of the need for adequate and reliable provincial funding for public libraries.

Across the 247 public library service points serving British Columbia, public libraries make a difference to community social and economic development and individual well-being. There are many examples of how we ensure equity of access and outcomes for all learners in support of the development of educated citizens. In particular, we would like to draw your attention to the following:

- Reconciliation initiatives that open dialogue and advance the TRC Calls to Action.
  - [The Blanket Exercise](#), Nelson Public Library
  - [Let's Talk about Reconciliation: Indigenous Film Series](#), Surrey Libraries
  - [Honouring Reconciliation: Ambleside by Canoe](#), West Vancouver Memorial Library
  - [An evening with Bob Joseph, 21 Things You May Not Know about the Indian Act](#), Smithers Public Library
  - [What is Reconciliation and What it is Not](#), Vancouver Island Regional Library, Courtenay

B.C. public libraries are proud of the collective impact we have in providing resources and services for vulnerable community members so that they can access basic services. Working together, we can ensure that people from every background have the opportunity to reach their full potential. Public libraries are unique in our ability to build on the power of partnerships, collaboration and engagement to meet community needs.

In order to continue to successfully support the government's progress in substantively meeting its strategic goals, we urge the Select Standing Committee on Finance and Government Services to act on our shared understanding that provincial government financial support is critical to the successful continuance of public libraries and their positive impact on British Columbia's communities.

## GREATER VICTORIA PUBLIC LIBRARY

While libraries appreciate the stability of grant funding that government has provided since 2010 (approximately \$14 million per year), the lack of regular increases means that each year libraries receive less and less support, due to inflationary pressures.

Since 2009, the public library community has asked that the provincial government provide funding for public libraries that at a minimum includes annual increases to account for inflation. Despite these repeated requests, for the past decade public libraries have received no increase to funding.

This year we are asking the provincial government for \$20 million for public libraries in 2020 as this will help address the chronic under-funding, lack of increases for inflation and past government cuts.

Your attention to this urgent issue is appreciated.

Sincerely,
