Attention: Select Standing Committee on Finance and Government Services

Regarding 2020 BC Government Budget Priorities

Dear Katrine Conroy,

This submission is on behalf of the Trail & District Public Library. It is urgent that we bring to your immediate attention the importance of provincial support for public libraries. Public libraries are the only public institutions that are truly equitable in providing services for all community members so that they may participate in, and benefit from the social and economic development of their communities. Public libraries are also the only freely accessible public spaces for all British Columbians to connect with, learn about and experience the advantages of living in this province.

We know that public libraries significantly contribute to the government's goals for making life more affordable, improving services, building a strong, sustainable and innovative economy for all British Columbians. This committee is aware of the important role of public libraries from the annual UBCM resolutions regarding provincial public library funding and from the compelling stories and evidence annually submitted to this committee from public library trustees, staff, community members, and local government officials from across the province.

We appreciate the provincial government's recognition of the public library funding issue. In 2017 the provincial government, in response to the UBCM Resolution B60, acknowledged that

the cost of delivering public library services has increased with changing technology and other demands. We are heartened that we all share the understanding of the need for adequate and reliable provincial funding for public libraries.

The Trail and District Public Library urges the Select Standing Committee on Finance and Government Services to act on our shared understanding that provincial government financial support is critical to the successful continuance of public libraries and their positive impact on BC communities.

While libraries appreciate the stability of grant funding that government has provided since 2010 (approximately \$14 million per year), the lack of regular increases means that each year libraries receive less and less support, due to inflationary pressures. After many years of this, libraries are falling behind in their ability to meet growing needs. Since 2009 the public library community has asked that the provincial government provide funding for public libraries that at a minimum includes annual increases to account for inflation. Despite these repeated requests, for the past decade public libraries have received no increase to funding.

This year we are asking the provincial government for \$20 million for public libraries in 2020 as this will help address the chronic under-funding, lack of increases for inflation, and past government cuts.

Your attention to this urgent issue is appreciated.

Sincerely,

Samantha Murphy,
Library Director
Trail & District Public Library
